Midterm Exam - Requires Respondus LockDown Browser + Webcam Settings			

2) Click Advanced Settings under the section for Lockdown Browser Settings:

V Midterm Exam - Requires Respondus LockDown Browser + Webcam				
	LockDown Browser Settings			
		O Don't require Respondus LockDown Browser for this exam		
	Require Respondus LockDown Browser for this exam			
	Password Settings			
	Access code for this exam (required) Saints1845!			
	Advanced Settings			
	Require LockDown Browser to view post-exam feedback and results [explain]			
	Lock students into the browser until exam is completed [explain]			
	□ Allow students to take this exam with an iPad (using the "LockDown Browser"			
	Allow access to specific external web domains [explain]			
		Enable Calculator on the toolbar [<u>explain]</u>		
		Enable Printing from the toolbar [explain]		

3) You will need to check Allow Access to specific external web domains. You will enter the domain website for the textbook.

 Allow students to take this exam with an iPad (using the "LockDown Browser" app from the Apple App Store) [explain] Allow access to specific external web domains [explain] 			
Enter one or more web domains, separated by commas (e.g. algebra-ebooks.com, calculus-ebooks.com)			

To add a valid site, such as a publisher's e-book, the instructor must first add the web links to the exam itself, usually the first question. The link cannot be in any exam instructions outside the active exam. The web links must also be configured to "open in a new window or new tab", not the "same window".

As an example, to access Amazon's Kindle Cloud Reader, the instructor would enter "read.amazon.com" along with "www.amazon.com/ap/signin" separated by commas into the "Allow access to specific external web domains" listing.
