

Import Course Content

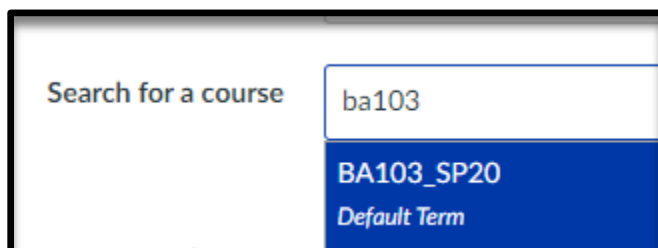

Click on Import Existing Content Tool:

Select Copy a Canvas Course:

Type in the course that you are wanting to copy from and select it:

You can either select All Content (entire course) or select specific content (certain items in the course)

Content All content
 Select specific content

If you select All Content, then click Import:

Content All content
 Select specific content

Options Adjust events and due dates

Importing the same course content more than once will overwrite any existing content in the course.

If you select Specific Content and click Import:

Content All content
 Select specific content

Options Adjust events and due dates

Importing the same course content more than once will overwrite any existing content in the course.

Then, you will click on Select Content:

MG 300 - Principles of...	Mar 21 at 10:28am	Waiting for Selection	Select Content
